🔗 Portfolio: <https://my-portfolio-seven-pink-33.vercel.app>

A Software Engineer with hands-on experience building modern full-stack web applications using Next.js, React, TypeScript, Node.js, MongoDB, and Tailwind CSS. Skilled in developing secure authentication systems, RESTful APIs, responsive user interfaces, and scalable backend architectures. Passionate about writing clean, maintainable code and solving real-world problems through software. Strong leadership experience from serving as both Vice President and President of the Software Engineering student body. Currently seeking opportunities to contribute as a Full Stack Software Engineer.

TECHNICAL SKILLS

Languages

- JavaScript (ES6+)
- TypeScript

Frontend

- Next.js
- React.js
- Tailwind CSS
- Responsive Web Design
- HTML5
- CSS3

Backend

- Node.js

- REST APIs
- Authentication (JWT, Session-based)

Databases

- MongoDB
- Prisma ORM

Tools

- Git
- GitHub
- Vercel
- Postman
- VS Code

Core Skills

- Full Stack Development
- API Integration
- Database Design
- System Design
- Performance Optimization
- Problem Solving

PROJECTS

❖ NAGGW Staff Canteen Management System

Full Stack Web Application

Tech Stack: Next.js 16 • TypeScript • MongoDB • Tailwind CSS • JWT Authentication • Nodemailer • Zod • Vercel

- Developed a secure staff canteen management platform exclusively for NAGGW employees.
- Implemented JWT-based authentication and role-based access control for staff and administrators.
- Built a real-time food ordering system with order tracking and desk delivery workflow.

- Integrated automated email notifications for order confirmations and updates using Nodemailer.
- Designed a comprehensive admin dashboard for menu, order, and staff management.
- Validated user input using Zod and deployed the application on Vercel.

❖ **AAC Innovations – Digital Business Solutions Platform**

Full Stack Business Management Platform

Tech Stack: Next.js 16 • TypeScript • Node.js • MongoDB • JWT Authentication • Cloudinary • Nodemailer • Tailwind CSS • Framer Motion

- Built a complete business management platform for a digital solutions company.
- Developed secure admin authentication with protected dashboard access.
- Created dynamic portfolio and service management modules for content administration.
- Implemented an automated consultation booking system with email confirmations.
- Integrated Cloudinary for secure image upload and media management.
- Designed responsive interfaces with Tailwind CSS and Framer Motion for an enhanced user experience.

❖ **ArenaBook – Online Football Pitch Booking Platform**

Full Stack Booking Application

Tech Stack: Next.js 16 • TypeScript • Node.js • MongoDB • Mongoose • JWT • Paystack API • Nodemailer • Tailwind CSS • React DatePicker

- Developed an online football pitch reservation platform with real-time availability and hourly scheduling.
- Integrated the Paystack payment gateway for secure online payments.
- Built user authentication and an admin dashboard for managing bookings and schedules.
- Implemented automated booking confirmation emails using Nodemailer.
- Designed an intuitive booking interface with date and time selection using React DatePicker.
- Structured MongoDB database models to ensure efficient booking management and prevent scheduling conflicts.

EDUCATION

Bachelor of Science (B.Sc.) in Software Engineering

Al-Qalam University, Katsina (2021-2025)

Relevant Coursework

- Software Engineering
- Data Structures & Algorithms
- Database Systems
- Object-Oriented Programming
- Computer Networks
- Web Development
- Software Testing

LEADERSHIP EXPERIENCE

President

Software Engineering Students' Association

- Represented and coordinated Software Engineering students during Level 4.
- Led academic and departmental initiatives.
- Organized student activities and collaborated with faculty.
- Promoted teamwork, leadership, and student engagement.

Vice President

Software Engineering Students' Association

- Assisted in planning departmental programs and activities.
- Worked closely with executives to improve student participation.
- Coordinated meetings and student communications.

ACHIEVEMENTS

- Built multiple production-ready full-stack web applications.
- Deployed applications using modern cloud platforms.
- Experienced in authentication, APIs, and database design.
- Active learner of modern web technologies.

SOFT SKILLS

- Leadership
- Team Collaboration
- Communication
- Critical Thinking
- Project Management
- Time Management
- Problem Solving

LANGUAGES

- English
- Arabic
